EXPERIENCE

Android Developer Intern

Resolute AI

06/2024 – 07/2024

- Migrated the codebase from Java to Kotlin, improving readability and maintainability.
- Transitioned from Google Fit API to Google Health Connect API, ensuring future-proof integration and enhanced data interoperability.
- Collaborated with the team to refactor code, leading to a boost.
- Conducted testing and debugging to ensure seamless functionality of the new API integrations.
- Documented migration and integration processes for future development and best practices.
- Assisted in deploying updates with minimal downtime, ensuring a smooth user transition.
- Participated in code reviews and team meetings, contributing to a collaborative and agile environment.

SELECTED PROJECTS

CryptoCurrency Tracker

Kotlin, Retrofit, MVVM, Jetpack Compose

02/2024

- Built a cryptocurrency tracking app providing real-time price updates and historical data.
- Integrated Retrofit for API communication, ensuring efficient data retrieval and updates.
- Designed a clean and user-friendly interface with Jetpack Compose for an enhanced user experience.

Talkify

Kotlin, MVVM, Jetpack Compose, Firebase, Google Cloud

03/2024

- Developed a real-time room messaging app with an AI chatbot using Kotlin and MVVM architecture, ensuring clean separation of concerns and scalability.
- Integrated Firebase for real-time data synchronization, secure user authentication, and cloud storage, providing a reliable messaging experience.
- Designed a responsive UI with Jetpack Compose, enhancing user interaction with a modern and dynamic interface.
- Utilized Google Cloud for backend infrastructure, ensuring scalability and high availability during increased traffic.

Portfolio

HTML, CSS, React, Bootstrap

04/2024

- Designed and developed a personal portfolio website showcasing projects, skills, and achievements.
- Implemented responsive design using Bootstrap to ensure compatibility across devices.
- Optimized website performance, achieving faster load times and improved SEO.

EDUCATION

B.Tech Computer Science , 7.39 CGPA

Indian Institute of Information Technology,
Gwalior, India

11/2022- 06/2026

HSC-XII 93.33%

Viswasattya College of Science, Ojhar, India

04/2021 - 04/2022

SKILLS

Languages

- Java • C++ • Kotlin • Python

Android

- AndroidSDK • Jetpack Compose
- MVVM • Android Studio • RestAPI
- Firebase

Web Development

- HTML • CSS • React • Vercel

Database Systems

- MySQL • PostgreSQL • RoomDB

Learning

- SpringBoot • Docker • Kubernetes

Tools

- Git • Github • Latex • Canva • Office

ACHIEVEMENTS

- Highest on Codechef, 1625 Rating
- Highest on LeetCode, 1807 Rating
- 98.89 percentile in JEE MAINS Advanced

COURSEWORK

- Software Engineering
- Object Oriented Programming System
- Computer Networking
- Operating System
- Database Management System
